CSA Produce Share: Each week's share will be a little different in variety and quantity, depending on what's growing in the season and how much is harvested from the fields that week. We aim to have 8-10 different items in each share (5-6 for the single share) including salad greens, cooking greens, root vegetables, herbs and other vegetables. Typically, a share will fill 2-4 plastic grocery bags. CSA share pick-up is at our farm on **Friday evening 5-7pm and Saturday 9-11**. All produce on the farm is grown as close to organic standards as possible without involving the USDA and its bureaucracy. Only organic and natural fertilizers, organically certified pest or disease control products are used in the growing of the crops.

We require an initial **non-refundable deposit of \$75 for a single or couple share** and **\$150 for a family share** to secure the share, which goes towards the cost of the membership if it is not cancelled.

Each membership agrees to work **8 hour single share, 16 hours couple/family share on the farm over the 28 week season** (1 hour/month for months August to June) **OR pay up front for the work hours**. The hours will start with the pot party (getting the field ready for planting), usually two weekends in late August. Then we ask for 2 hours each month in September and October to get the fields planted. The remaining hours through the season. We will accommodate all physical limitations.

Other activities available to all members include fall dinner, canning/baking classes, Ladybug Festival. There will be fees for the activities which will be provided to you in advance.

Share Information: (3rd weekend in November for 28 weekly harvests)

- **Single Share (1 person):** picked up **every other** week during the season. This should provide enough vegetables for 1 person for the 2 week period.
- **Couple share (2-3 people):** picked up **every other** week during the season. This should provide enough vegetables for 2-3 people for the 2 week period.
- **Family share (4-6 people):** picked up **every** week during the season. This should provide enough vegetables for a family of 4-6 each week.
- **Pick up schedule:** Single and couple memberships will be set up on a Week A or Week B schedule for the season based on your last name. Members will receive a pick-up schedule prior to the start of Season.

Please tell us: _____ New member _____ Renewing member
